

Referanseintervall
- innledning

Noklus møte Gardemoen, mars 2019

***The patient's story
Clinical Findings***

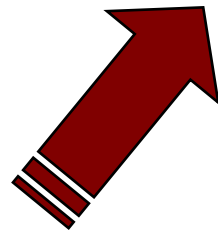

***Pre-pre
(test requesting)***

***Pre-analytical
phase***

Analytical phase

***Post-analytical phase
(report)***

***Diagnosis
Treatment
Monitoring***

Post-post (interpretation)

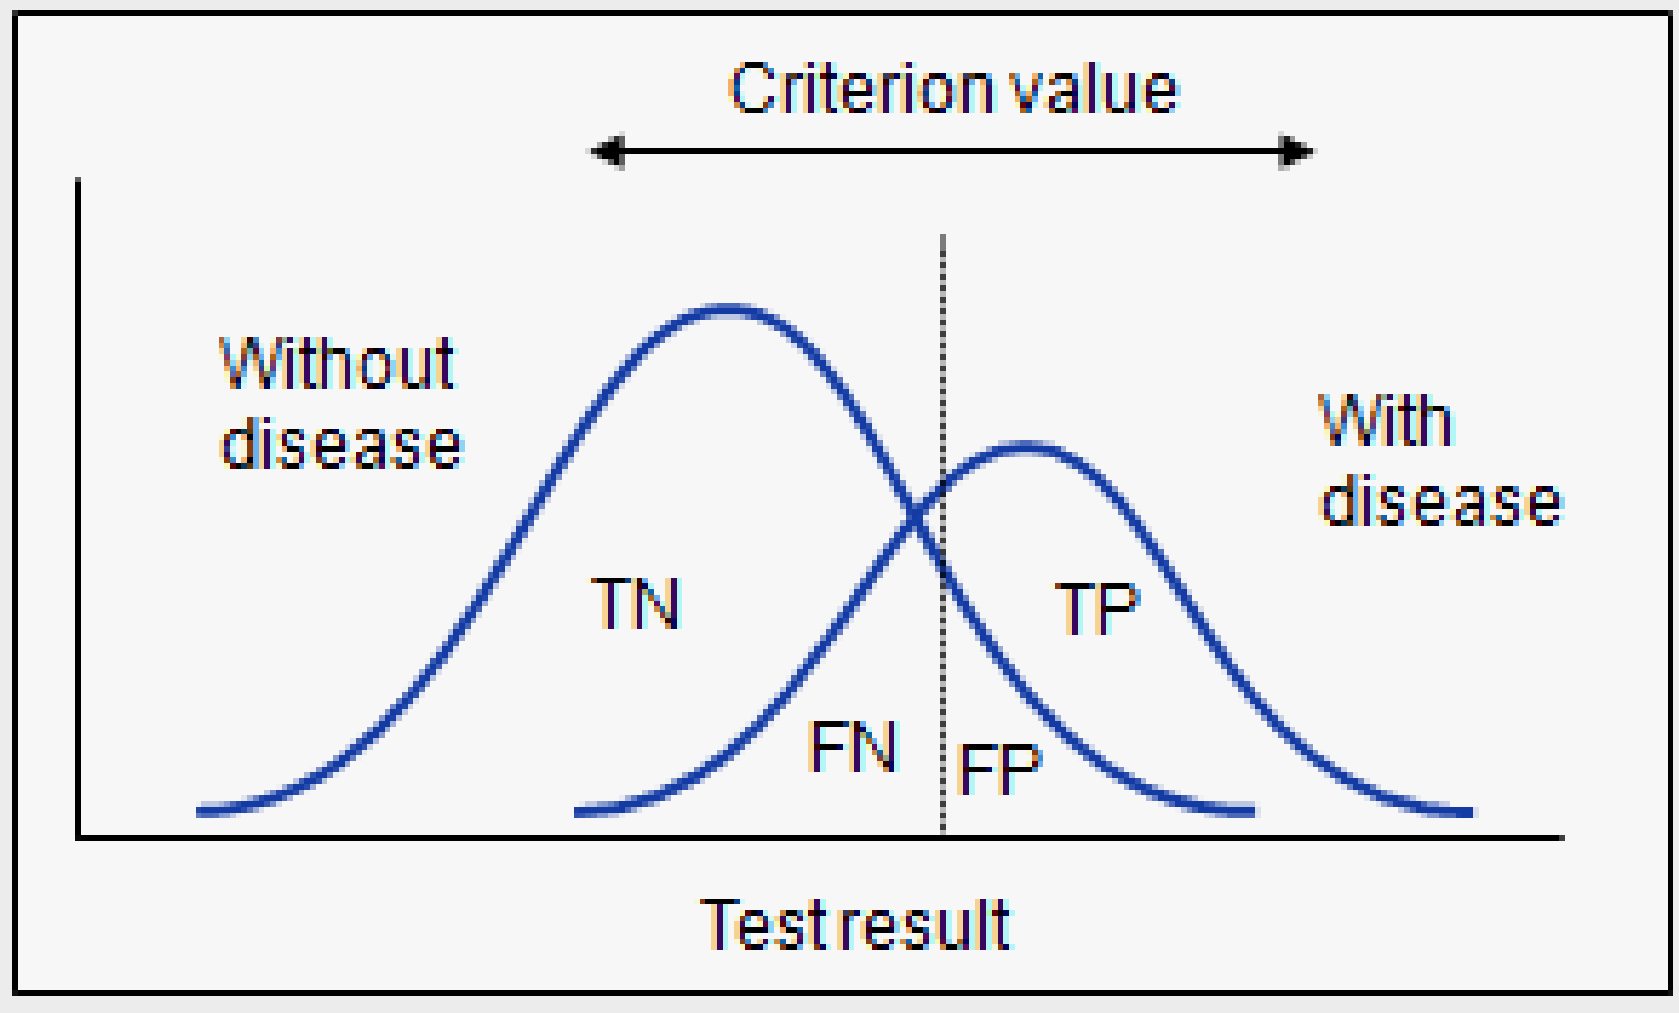

Referanseintervall (populasjon/person)

Hvorfor?

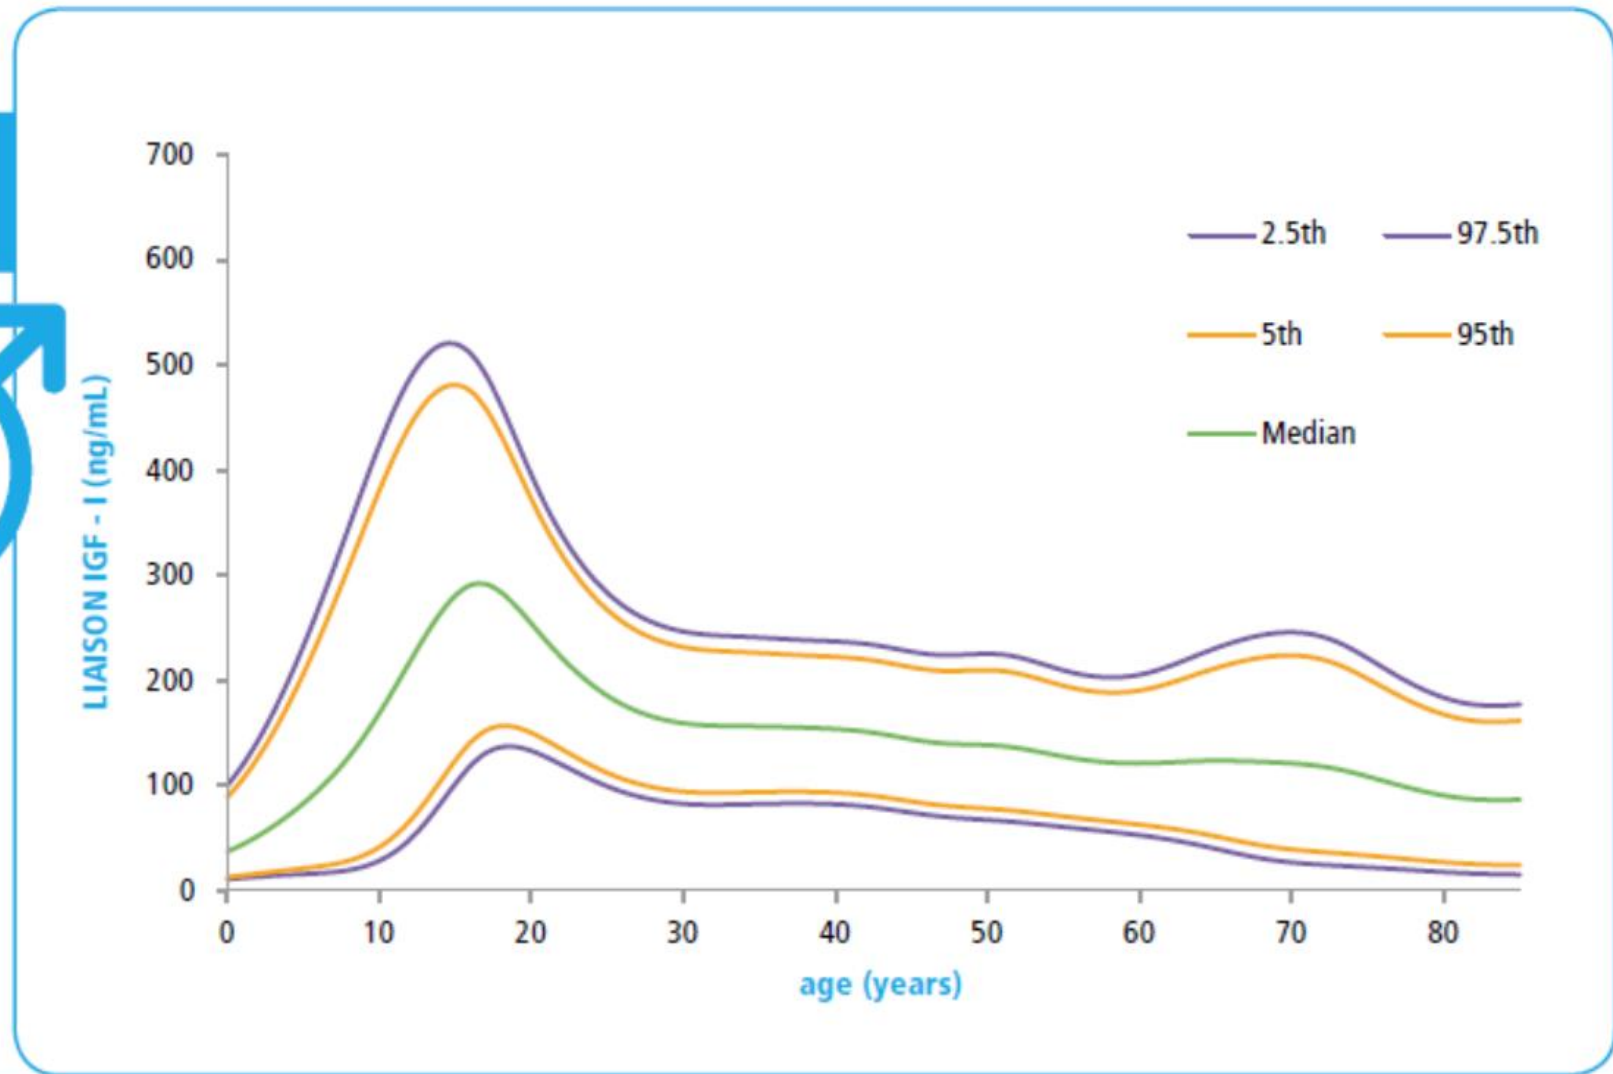

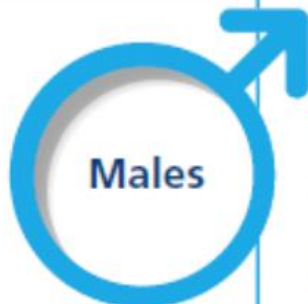

Det handler om kommunikasjon

Vi sier noe om hvor stor sannsynlighet det er for å tilhøre en »frisk» befolkning. Men ingenting om hvor stor sannsynlighet det er for å være syk – spesifisitet på 97,5%

Vi dichotomiserer. Gjør vi det på den riktige måten?

IGF - I Reference Ranges

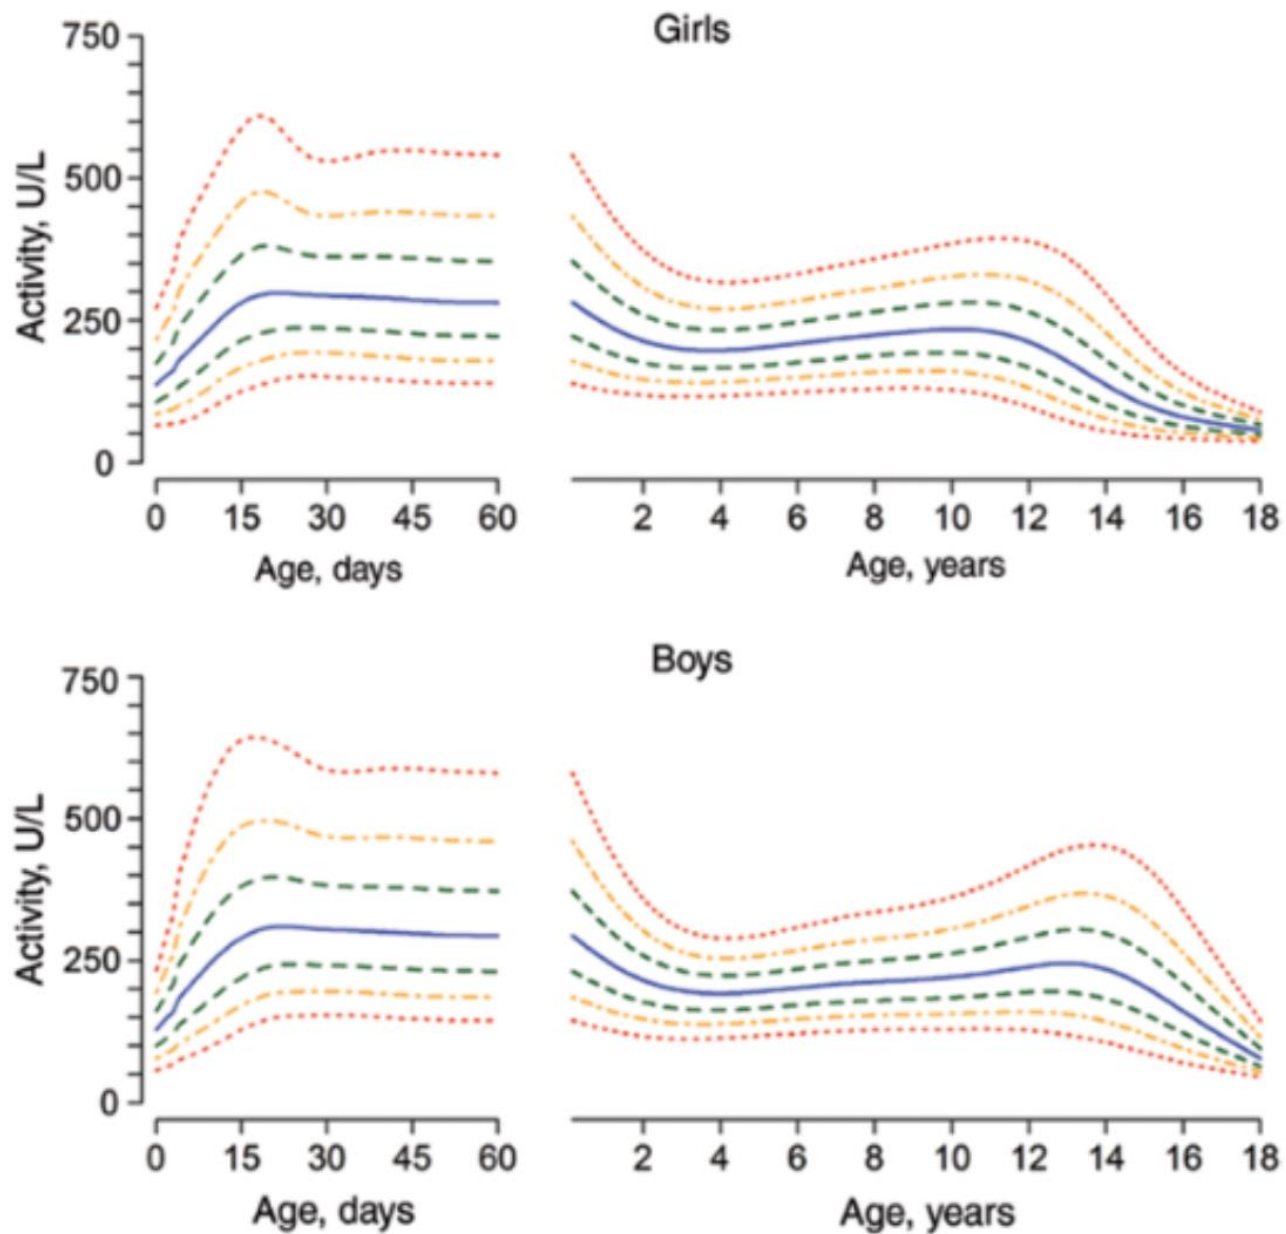

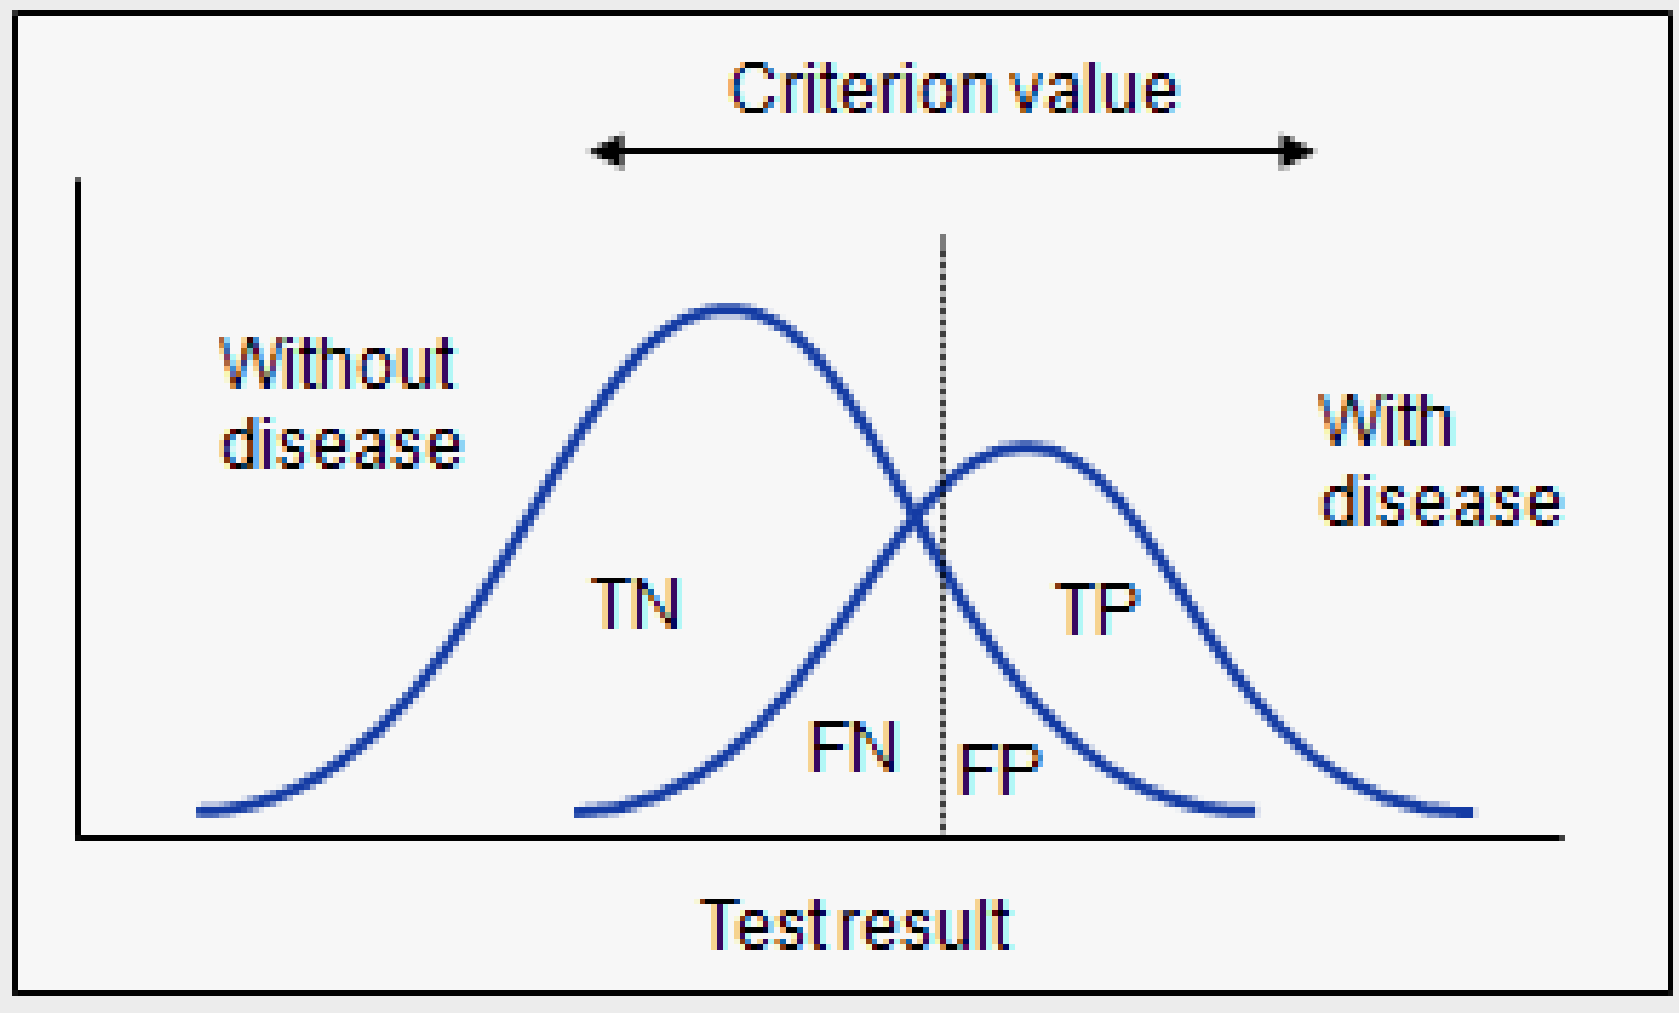

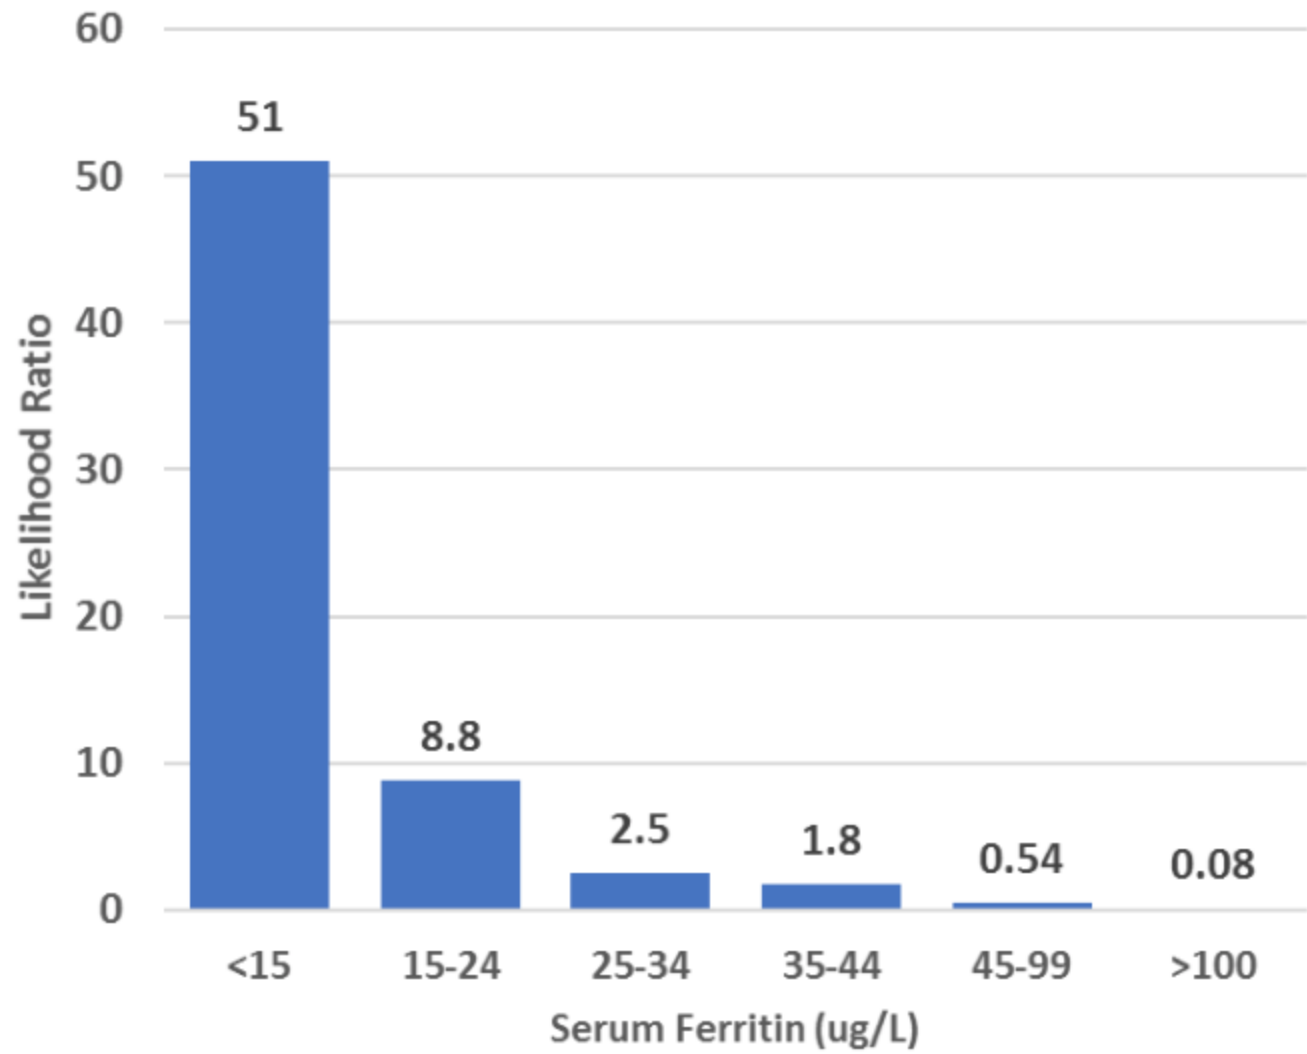

Figure. Paediatric Reference [limits](#) for alkaline phosphatase activity by age and gender

Likelihood Ratio for iron deficiency given ferritin
